

A close-up photograph of a person's hand holding a white ID card. The person is wearing a dark business suit jacket over a white collared shirt. The ID card features the 'IDZONE' logo in orange and blue, and the slogan 'Photo ID. Priced Right.' in white text on a dark blue background.

IDZONE

Photo ID. Priced Right.

IDZONE

ID Zone is the leading retailer of photo ID card printers and complete systems, card printer ribbons and supplies, ID badging software, ID cards, photo ID cameras and badge accessories including badge holders, reels and lanyards.

ID CARD PRINTERS

ID Zone stocks digital ID card printers from the industry's most trusted manufacturers: Fargo, Magicard, Evolis, Nisca, Zebra, Datacard, EDIsecure, Polaroid and NBS Technologies.

FARGO

Fargo DTC1000

Reliable, convenient and easy-to-use card printing for small to medium sized ID applications.

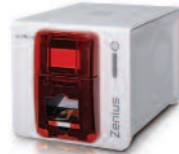

MAGICARD

Magicard Enduro

Offers all the latest technologies and an innovative single to dual-side printing upgrade by dropping in a special ribbon.

evolis

Evolis Zenius

Features a compact, quiet design and intuitive user interface with optional encoding and Ethernet connectivity.

TEAM NISCA

Nisca PR5350

Combines 24-bit print quality, durability, high-speed printing and optional lamination—all in a small footprint.

Card Printer Solutions Zebra

Zebra P330i

Built for demanding environments, featuring a reliable card feed system and a long-lasting printhead design.

Datacard

Datacard SP75 Plus

Extremely versatile with options to fit any need, the SP75 Plus offers high reliability, fast print speeds and advanced security.

ID CARD PRINTER SYSTEMS

Our complete photo ID systems are put together by our ID Experts with your needs in mind. Designed to be convenient and economical, our systems include everything you need to get started printing great-looking photo IDs—a card printer, ID card software, a camera, ribbon and PVC cards.

We stock photo ID systems featuring Fargo, Magcard, Evolis, Nisca, Zebra, Datacard and EDIsecure card printers. Contact our Photo ID Experts for help selecting or configuring a custom photo ID solution that fits your needs.

Single-sided Systems

It doesn't get any easier than this. Most single-sided systems are lightweight and compact, making them easy to transport or to stow away. Choose a system that prints full-color, monochrome only or on rewritable cards. Many also offer upgrades to magnetic stripe encoding, Ethernet and more.

Dual-sided Systems

Dual-sided printers offer the flexibility of printing on one or both sides of a card in a single print cycle. Print full-color on both sides of your cards or print full-color on one side, monochrome on the other. Expand the capabilities of your cards by including magnetic stripe or smart card encoding.

Laminating Systems

Printers capable of lamination provide your printed cards added durability and protection from the wear that occurs over time, which is especially important if your cards will be swiped. Choose clear lamination or step up to holographic lamination for varying levels of visual security as well as protection from card tampering.

Reverse Transfer Systems

Cards printed with reverse transfer technology provide vibrant photographic quality images. Plus, this technology allows you to print on uneven card surfaces such as smart cards and access control cards. Most reverse transfer printers also offer a lamination option for the most durable and secure cards.

CAMERAS

Easy to use photo ID cameras capture digital images for ID card production. We stock top brand cameras for every level of user.

VALCam

High quality and fast—the original high-end photo ID camera. VALCam makes taking the perfect ID photo in any environment easy.

Digital Cameras

Digital cameras provide the performance of a professional digital SLR camera or the compact convenience of a point-and-shoot.

Credential Cam Web Cam

An economical and easy-to-use web cam, the Credential Cam is tri-pod compatible and has a built-in face finding feature.

SUPPLIES

ID Zone has the most extensive online selection and best pricing on all photo identification supplies.

Color Ribbons

Dye sublimation ribbons blend colors to produce high quality photographic images. They are ideal for printing cards with a vibrant colorful design.

Monochrome Ribbons

Monochrome resin ribbons are an economical solution for printing single-color cards with sharp text and crisp barcodes. Available in black and color.

Laminates

Clear or holographic, standard or custom, lamination adds both durability and security to your ID cards by adding a layer of protection.

Cards

Choose from our huge selection of 100% PVC cards, PVC/PET cards, magnetic stripe cards and cards with embedded security features.

Cleaning Kits

Cleaning your printer is one of the easiest things that can be done to help maintain great print quality and extend the life of your printer.

Access Control

ID Zone offers many options that allow you to combine proximity technology and photo identification in a single card. We also program your proximity device to your specifications.
